

JOB DESCRIPTION

REFERENCE NUMBER: EP688

JOB TITLE: SAP – Finance: Expert and Experience Consultants

LOCATION: Toronto, Canada / USA

BACKGROUND TO POSITION: Globally, our client is short on specific talent – especially in the financial arena – they have more work than people. Whilst they have recently opened a new office in Toronto, Canada in the hope of attracting local Canadian talent, they will be transferring some talent from their office in India, while seeking similar talent from South Africa.

Given that the focus is on the Toronto office, they are nonetheless happy to have any new recruit considering relocating to one of the USA offices. It should be noted, however, that the USA immigration process is so much more complicated (and expensive).

A willingness to move to Canada / US is crucial for this position and Madiba will pay for the visa application process and relocation.

The recent Covid pandemic has meant that most of the client's workforce be operated remotely. With the pandemic restrictions now easing, there might be some onsite travel and work required, as determined by the client's need.

The company is most interested in skills and attitude and welcomes candidates who have little experience but possess the right attitude. The company is prepared to invest in training and certification.

- REQUIREMENTS:**
- A high-level and 'generic' perspective from the SAP–Finance environment with a track record of expertise and experience in solving complex integration challenges as they apply to finance departments.
 - The applicant can be at any level, provided the candidate is well-seasoned in consulting at a corporate client level.
 - Must have a genuine and well-founded interest in relocating to Canada (or USA).

JOB DESCRIPTION

- Regardless of level, all applicants must possess a positive mental attitude.
- Ideally and especially for the minimally experienced SAP consultant, an undergraduate qualification in Finance (B Com or similar).
- For more seasoned consultants, experience and expertise will count for more than a qualification(s) per se.
- Less senior applicants (i.e., those with minimal SAP experience) must possess and show the right mental attitude and an aptitude to grow in the position.
- SAP Technical Architects inclusive of: SAP Basis, SAP Integration, AWS/Azure/GCP. Architects with relevant SAP experience will prove advantageous.
- Additionally, one or more of the following SAP certifications will greatly enhance an application:

SAP S/4HANA, Financial Accounting with SAP ERP, SAP Business Objects Business Intelligence Platform, ABAP with SAP NetWeaver 7.50, SAP Commerce, Financials in SAP/4HANA for SAP ERP Finance Experts.
- Must have good communicative ability and a key focus and interest in consulting engagements as they relate to complex projects

APPLICATION REQUIREMENTS:

- A letter of motivation.
- A comprehensive CV.
- An abridged CV.
- Names and contact details for at least 3 referees.
- Certified copies of matric and degree certificates and Identity Document.

To apply please forward your application quoting reference number **EP688** to Genevieve Michel c/o at: sapcan@talenting.co.za
